

### **Creating a Culture of Security- The importance of planning, training, and collaboration**

School leaders continue to face ever evolving threats and hazards. From school violence to a global Pandemic, safety and security strategies must evolve to provide the safest environment possible for students and staff.

This presentation will provide participants with an overview of school safety and security with an emphasis on related NJ laws and regulations. It will provide a guideline for effective school safety practices and collaboration between schools, law enforcement personnel, and community stakeholders.

The content will take participants through an overview of school safety laws and regulations, emergency responses, drills, and law enforcement operations culminating with a situational exercise that emphasizes the many facets of crisis response and the need to embrace a culture of security.

#### **Topics include:**

- School Safety and Security Background
- School Safety and Security Planning
- Emergency Responses
- Emergency Drills- Training your school community
- Roles and Responsibilities
